

StayOS

Manager Configuration & Front Desk Booking

This guide explains how room occupancy, child pricing and taxes configured by the Manager are automatically applied while Front Desk creates a booking.

**Manager configures the rules
then**

Front Desk uses them automatically

1. Configure Room Occupancy

 **Deluxe**
DLX

0 AMENITIES

Standard occupancy

2

Maximum occupancy

3

Maximum adults

2

Maximum children

1

Allows up to 2 adults + 1 child, 3 guests total

Save occupancy

Select amenities

Save

These settings decide how many guests can stay in this room type. Front Desk cannot create a booking that exceeds these limits.

- Standard occupancy: 2
- Maximum occupancy: 3
- Maximum adults: 2
- Maximum children: 1

2. Configure Child Pricing

Rates & Guest Pricing

 Save changes

Configure how StayOS prices children and guest occupancy.

Child pricing

 Age-based pricing

Apply different pricing based on the child's age.

Maximum child age

Guests above this age are treated as adults.

17 years

 **How StayOS will use this**

When children are added to a booking, StayOS will ask for their ages and automatically apply the matching pricing rule.

Child age rules

+ Add age band

Keep age ranges continuous so every child age has exactly one rule.

Age 0-5

To age

17

Pricing

Use adult pricing

When Front Desk enters the child's age, StayOS automatically selects the matching pricing rule.

- Age 0-5: Free
- Age 6-11: INR 850 per child per night
- Age 12-17: Adult pricing

3. Configure Taxes

Taxes & Charges

Configure the property tax applied to booking and folio charges.

Property tax

Percentage of taxable amount.

☒ Enabled

Tax name

GST

Tax percentage

12%

Room charges	₹3,500
Child charges	₹850
Taxable subtotal	₹4,350
GST 12%	₹522
Total	₹4,872

Save tax settings

The configured tax is automatically used when StayOS calculates the booking total.

- Tax name: GST
- Tax percentage: 12%

4. Front Desk Creates Booking

1 NIGHT 1 night · 14 Aug → 15 Aug

3 | Room?

Deluxe
 ₹3,500 / night

MAX 2A / 1C ☒

Suite
 ₹6,500 / night

MAX 2A / 1C ☐

Deluxe allows up to 1 child.

Adults

Enter a whole age for every child.

4 | Confirm

Aarav Kapoor · 1 nights · Deluxe
 14 Aug → 15 Aug · 2 adults · 2 children

Room charges	₹3,500
GST 12%	₹420
Total payable	₹3,920

+ Add notes / special requests v

When will payment be collected?

Collect at check-in
 Collect ₹3,920 after ID verification

Partial deposit now
 Advance / holding amount

Collect full now
 Take ₹3,920 now and mark paid

No payment is recorded during booking. At check-in, collect the total payable amount: **₹3,920.**

Change booking source

- Front Desk enters guest, dates, room, adults, children and child age.
- If a room does not fit the guest count, StayOS shows a warning and prevents booking.
- Example: 2 adults and 2 children exceeds the configured Deluxe child limit.

5. Automatic Price Calculation

4

Confirm

Aarav Kapoor · 1 nights · Deluxe

14 Aug → 15 Aug · 2 adults · 1 child

Room charges	₹3,500
Child charges	₹850
Subtotal	₹4,350
GST 12%	₹522
Total payable	₹4,872

[+ Add notes / special requests](#) ▼**When will payment be collected?****Collect at check-in**

Collect ₹4,872 after ID verification

Partial deposit now

Advance / holding amount

Collect full now

Take ₹4,872 now and mark paid

No payment is recorded during booking. At check-in, collect the total payable amount: **₹4,872**.[Change booking source](#)[Create Booking →](#)

Booking confirmed. You can assign a room next.

- Room charges, applicable child charges and tax are calculated before booking is created.
- In this example, StayOS applies the child price for age 9 and GST at 12%.

6. What Staff Should Check

Please try normal hotel booking scenarios and check that StayOS applies the Manager's rules correctly.

Try different combinations

- Different room types
- Different number of adults
- Different number of children
- Child ages such as 4, 6, 9, 12 and 17
- Different stay durations

Check

OK Correct room capacity

OK Correct child price

OK Correct tax

OK Correct total

OK Booking creates successfully

If something looks wrong, share

- Screenshot
- What you entered
- What you expected
- What StayOS showed

Please explore the system normally as you would while handling hotel bookings. If anything feels incorrect, confusing or difficult to use, please report it.
