

Housekeeping V1 Staff Guide

Account: housekeeping@stayos.local | Password: Password123! | Generated: 3 Aug 2026, 9:40 pm

This guide is for staff pilot testing. Follow normal hotel operations and report anything confusing, blocked, or financially incorrect.

Cleaning workflow

1. Open Housekeeping.
2. Review dirty/inspection rooms.
3. Start work on assigned room.
4. Mark cleaning complete when done.
5. Send room for inspection if required.

Room status

1. Only update housekeeping status when the actual room condition changed.
2. Use notes for maintenance or inspection blockers.

Priority handling

1. Clean checkout rooms first when front desk is waiting for saleable rooms.
2. Flag maintenance issues instead of marking the room ready.
3. Use search and filters when the room list is long.

Do Not

- Do not create bookings.
- Do not assign guest rooms.
- Do not access billing or front desk-only workflows.

Report Issues Like This
