

# Maintenance V1 Staff Guide

Account: maintenance@stayos.local | Password: Password123! | Generated: 3 Aug 2026, 9:40 pm

This guide is for staff pilot testing. Follow normal hotel operations and report anything confusing, blocked, or financially incorrect.

---

## Maintenance workflow

1. Open Maintenance.
2. Review unavailable/out-of-order rooms.
3. Update task status as work progresses.
4. Mark resolved only when room can return to operations.

---

## Coordination

1. Coordinate with housekeeping before room returns to sellable inventory.
2. Keep notes short and operational.

---

## Operational impact

1. Out-of-order rooms should not appear as ready for assignment.
2. Tell front desk when a room cannot be sold today.
3. Use clear room numbers and short notes in every update.

---

### Do Not

- Do not assign reservations.
- Do not change billing.
- Do not mark a room ready unless operationally cleared.
